

27 June 1983

MEMORANDUM FOR: Vice Chairman, National Intelligence Council (Waterman)
National Intelligence Officer for USSR-EE

FROM: Director of Central Intelligence

SUBJECT: Memorandum to Holders, SNIE: 11/20/3-82

I found the INF estimate shaping up well. I made pencilled notes on page 13, page 18 and maybe on another page or two of the draft. I send along a memorandum on the same subject prepared by the Planning Staff at State. The difference in the view of the Planning Staff and the EUR and the INR is that the State paper seems to lay out a broader range of possible initiatives and reactions than our draft. Ours is much more specific in many respects. We should get ours out as quickly as possible.

William J. Casey
